

Albanian Metal Cable Tray Price Inquiry

Overview

As one of the foremost Cable Tray Exporters and Suppliers in Albania, we offer our complete range at competitive market prices.

Key Takeaways

Metal cable trays in Albania typically range from €15 to €50 per meter, depending on material, type, and load capacity. Price Overview

The cost of metal cable trays in Albania varies based on material, design, and size:

- Galvanized Steel Cable Trays: Commonly used for durability and corrosion resistance, prices generally range from €15 to €35 per meter for standard ladder or perforated trays. Hot-dip galvanized trays may be at the higher end due to enhanced corrosion protection.
- Stainless Steel Cable Trays: Used in environments requiring high corrosion resistance, such as chemical plants or coastal areas, prices typically range from €30 to €50 per meter.
- Fiberglass Reinforced Plastic (FRP) Trays: Lightweight and corrosion-resistant, FRP trays are usually priced between €25 and €45 per meter.

Factors Affecting Price

- Tray Type: Ladder, perforated, and trough designs have different manufacturing costs. Ladder trays are generally more economical, while perforated or custom-shaped trays may cost more.

- **Load Capacity:** Trays designed to support heavier cables or industrial installations are priced higher due to thicker metal and reinforced structures .
- **Customization:** Custom sizes, bends, and fittings increase the overall cost .
- **Supplier and Brand:** Established suppliers like Brilltech Engineers and Jeetmull Jaichandlall offer high-quality trays with certifications, which may slightly increase the price but ensure compliance with safety standards .

Practical Advice

- For bulk purchases, suppliers often provide discounts or package deals.
- Always confirm whether the price includes fittings, supports, and installation accessories, as these can add 10–20% to the total cost.
- Consider local suppliers in Albania to reduce shipping costs and ensure faster delivery . By using these reference ranges, you can budget effectively for projects involving metal cable trays in Albania while accounting for material type, tray design, and supplier quality.
