

BMX Explosion-proof Distribution Box

Overview

Enclosure of the explosion-proof illumination distribution panels treated with anti-static coating and all fasteners are anti-loosening.

Key Takeaways

BXM (Explosion Proof) Distribution Box is a standard distribution box for heat trace cable b of electricity antifreeze, using a hanging or vertical box structure, power cable entry at the bottom of the box, IP54 protection level, a variety of air circuit breakers are. BXM (Explosion Proof) Distribution Box is a standard distribution box for heat trace cable b of electricity antifreeze, using a hanging or vertical box structure, power cable entry at the bottom of the box, IP54 protection level, a variety of air circuit breakers are. BXM (D)8050 Series Explosion Proof. ♦ The explosion-proof illumination distribution boxes is equipped with compound design: Combines flameproof (Ex d) and increased safety (Ex e) chambers for flexible protection. Modular structure, The enclosures can be combined and installed to meet the various requirements of power distribution systems. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. The BXM, BXD, and BXJ explosion-proof distribution boxes are engineered for the safe operation and control of specialized equipment in hazardous environments.
