

Belize Low-Voltage Power Distribution Box

Overview

Belize power strips and PDU power distribution units for surface mount, rack mount and general purpose applications. The enclosure is made of bent steel plates, featuring a compact structure, easy maintenance, and flexible circuit scheme combinations. The table below shows why these. A shallow PVC box is a compact, durable enclosure designed primarily for electrical and low-voltage installations where depth is limited. Made from high-quality polyvinyl chloride (PVC), this type of box is resistant to moisture, corrosion, and most chemicals, making it ideal for both indoor and outdoor use.
