

Cube-shaped electrical distribution box

Overview

THE CUBE 32A three-phase power distribution box is the ideal solution for electrical distribution above 10kW.

Key Takeaways

The Cubes distribution boxes are versatile, handy to use and durable. They are made of lightweight polyethylene. In addition, we offer two smaller models, the mini cubes. They have many applications:. INDU-ELECTRIC proudly presents the Cube® Series—our most compact line of non-conductive power distribution boxes, engineered for professional use in demanding environments like construction sites, stages, film sets, and live events. Low voltage distribution panels from CUBIC are constructed on our Modular System, which is the perfect solution for. The PowerBox Cube Series is available in multiple sizes, each model being different just for the overall dimensions. The Cube boxes are molded in black insulating thermoplastic material, very resistant to shocks and the mechanical stress that these items will normally go through in their everyday. The CUBE03 is a 32A distribution unit designed to break down a single supply into two 16A feeds. Compact and easy to handle, it's built in the Cube Box format to give crews a straightforward way of sharing power across smaller devices and setups. Each unit is manufactured in the UK and housed in a.
