

Direct Sales of Stainless Steel Cable Trays from Major Manufacturers

Overview

Stainless steel cable tray Find your stainless steel cable tray easily amongst the 25 products from the leading brands (OBO Stainless Steel Trays Manufactu.

Key Takeaways

Major manufacturers offer stainless steel cable trays in 304 and 316 grades, available for direct purchase with customization and bulk order options. Leading Manufacturers and Suppliers

- Spina Group / Schiavetti Tekno – An Italian manufacturer providing stainless steel cable trays in ladder, perforated, closed, and wire-mesh types. They offer custom sizes, standard widths like 300 mm, and full compatibility with Unistrut systems. Products meet EN and UL standards and include accessories such as elbows, junctions, supports, and protective covers for indoor and outdoor use .
- DirectIndustry Brands – Platforms like DirectIndustry list multiple suppliers including OBO Bettermann, Ebo Systems, and CARPEL, offering stainless steel trays in AISI 304 and 316L with options for welded wire, perforated sheets, and mesh designs. Many products feature EASYCONNECT® systems for quick installation and safety .
- Accio / Chinese Manufacturers – Suppliers such as Shanghai Qinkai, Ningbo Vichnet, Hebei Saiyang, and Guangdong Yuchang provide wire mesh stainless steel trays suitable for industrial and data center applications. They offer tiered discounts for bulk orders, with 316 stainless steel recommended for corrosive environments. US-based SPKIND Electric targets premium segments with high-compliance products .

- Siltec – US-based manufacturer specializing in stainless steel cable trays for industries with stringent hygiene requirements, such as food, chemical, and lumber sectors. They provide customized solutions, automated production, and global delivery, emphasizing quality and flexibility .

Material and Specifications

- Grades: 304 (general corrosion resistance) and 316/316L (enhanced resistance for harsh or chemical environments)
- Types: Ladder, perforated, closed-bottom, wire mesh
- Load Capacity: Typically 200–500 lbs/ft, with mesh trays supporting short spans of 4–8 feet
- Standards Compliance: NEMA VE 1, IEC 61537, UL 1569, EN standards
- Accessories: Covers, elbows, junctions, supports, grounding holes, and fixing systems for modular installation

Purchasing and Direct Sales

- Bulk Orders: Many manufacturers offer discounts for large quantities (e.g., 1000–5000 meters)
- Customization: Widths, lengths, thicknesses, and protective coatings can be tailored to project requirements
- Installation Efficiency: Systems like EASYCONNECT® reduce installation time and improve safety
- Global Delivery: Suppliers like Siltec and Accio provide international shipping and technical support

Applications

Stainless steel cable trays are ideal for industrial plants, data centers, chemical facilities, and infrastructure projects, providing corrosion resistance, structural strength, and cable organization. Wire mesh trays allow heat dissipation and visual inspection, while closed or covered trays protect cables from dust, moisture, and mechanical damage. For direct purchases, contacting manufacturers or authorized distributors through platforms like DirectIndustry, Accio, or company websites ensures access to technical support, bulk pricing, and compliance documentation.
