

Does the China Unicom fiber optic box include a router

Overview

ZTE is claiming a world first, supplying China Unicom with a single box to provide customers with 5G-based in-home broadband, a WiFi access point, and a set-top box for video services. China Unicom 5G CPE VN007+ is a new 5G WiFi router based on 5G Chipset UNISOC V510 which could provide download rates up to 2.3 Gbps download speeds with support for 5G, 4G, and Wi-Fi 6E (802.11ax), ensuring ultra-fast and stable internet for streaming, gaming, and enterprise applications. The new hardware is being used by Unicom in regions where it is cost-prohibitive to connect homes with fiber –. China unicom's latest wifi 6 router, featuring cpe base station direct connection technology, delivers true high-speed broadband experience without the need for a wired network connection Suitable for renters, older residential communities, and mobile office environments. China Unicom 5G CPE VN007 supports dual 5G mode (NSA & SA) and the sub-6GHz global 5G mainstream band, realizing full network. Chinese operators are moving quickly to the next phase of residential fiber deployments by extending fiber inside homes and into individual rooms through a unique combination of a centralized ONT (Optical Network Terminal) and subtended ONT access points designed to ensure advertised speeds with.
