

Floating Optical Cable Price List

Overview

Shop DigiKey's large in-stock selection of Fiber Optic Cables. View inventory, pricing and order now for same day shipping!

Key Takeaways

Floating optical cables typically range from \$0.60 to \$6 per foot depending on type, strand count, jacket, and installation requirements. Typical Price Ranges

- Basic single-mode or multimode cable: \$0.25–\$1.50 per foot for the cable alone, with installation adding \$2–\$6 per foot depending on complexity and environment .
- Outdoor or armored cables: \$0.50–\$5 per foot, suitable for harsh conditions or direct burial, which may be relevant for floating or water-deployed applications .
- Pre-terminated assemblies: Higher upfront cost due to factory termination, but can save up to 70% on field labor . Prices vary by connector type and fiber strand count.
- Bulk or OEM orders: Ordering directly from manufacturers in large quantities can reduce unit costs significantly, especially for custom specifications .

Factors Affecting Cost

- Fiber Type and Strand Count: Single-mode fiber supports longer distances and costs \$0.10–\$0.50 per foot, while multimode fiber ranges \$0.30–\$1.00 per foot. Higher strand counts increase costs proportionally .
- Jacket Material and Rating: LSZH (Low Smoke Zero Halogen) jackets are 25–40% more expensive than standard PVC but are safer and environmentally friendly . Armored jackets for outdoor or floating applications increase durability and cost .

- **Installation and Labor:** Labor can account for 60–80% of total project costs. Pre-terminated cables reduce on-site labor significantly .
- **Permits and Accessories:** Outdoor deployments may require permits, conduits, or protective ducting, adding \$100–\$1,000+ depending on project size and location .
- **Regional Variations:** Urban areas may have higher labor and permit costs, while rural or remote locations may incur higher delivery or logistics expenses .

Example Project Costs

- **Short indoor run (1,000 ft):** Cable \$0.40/ft, labor \$1.00/ft, total $\approx$ \$2,650–\$3,100 .
- **Outdoor armored run (5,000 ft):** Cable \$1.00/ft, labor \$3.00/ft, total $\approx$ \$11,000–\$14,500 .
- **Full deployment with multiple terminations (6,500 ft):** Total \$15,000–\$20,000 including permits and professional testing .

Recommendations

- Request OEM or bulk quotes for floating optical cables to get competitive pricing .
- Specify environmental and mechanical requirements (waterproofing, UV resistance, LSZH or armored jackets) to ensure durability.
- Consider pre-terminated options to reduce field labor and installation errors . By considering these factors, you can estimate a realistic budget for floating optical cable projects and compare supplier quotes effectively.
