

How much does a ladder-type cable tray cost in Fengxin

Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

Key Takeaways

Ladder-type cable trays in Fengxin typically cost between \$5 to \$25 per meter for steel options, with prices varying by material, size, and supplier. Material and Price Overview

- Steel Ladder Trays: Most common and cost-effective, ranging from \$5 to \$25 per meter depending on thickness, load capacity, and galvanization. Hot-dip galvanized trays are widely used for corrosion resistance.
- Aluminum Ladder Trays: Lightweight and corrosion-resistant, suitable for humid or industrial environments, costing \$6 to \$30 per meter.
- FRP (Fiberglass) Trays: Used in aggressive chemical or outdoor environments, priced \$10 to \$50 per meter.
- Stainless Steel Trays: Premium option for high-demand or corrosive environments, generally more expensive than standard steel.

Factors Affecting Cost

- Tray Length and Rung Spacing: Standard trays are 2.4 meters long, with rung spacing typically 150mm, 225mm, or 300mm. Closer spacing increases material use and cost.

- **Load Capacity:** Heavier-duty trays with thicker rungs or side rails cost more due to higher material requirements .
- **Surface Treatment:** Hot-dip galvanization or powder coating adds to the price but ensures long-term durability .
- **Installation Accessories:** Supports, brackets, and connectors can add to the total cost per meter .

Purchasing Tips

- **Factory-Direct or OEM Deals:** Buying directly from manufacturers or through verified distributors can reduce costs and allow customization .
- **Bulk Orders:** Volume discounts are often available for large projects.
- **Local Suppliers:** Contacting suppliers in Fengxin or nearby cities can provide more accurate pricing and reduce shipping costs.

Installation Consideration

While the tray itself has a base cost, installation may add \$5 to \$15 per meter depending on complexity, supports, and labor availability . Ladder trays are generally more economical than solid-bottom trays due to less material usage and easier cable access. In summary, for a standard hot-dip galvanized steel ladder tray in Fengxin, expect \$5–\$25 per meter, with additional costs for installation, accessories, or premium materials. Contacting local suppliers or manufacturers directly will provide the most accurate and up-to-date pricing.
