

Malaysian Rail Cable Tray Manufacturer

Overview

Array Metal: Leading manufacturer and supplier of lightweight, durable cable trays in Malaysia, conforming to IEC and NEMA standards.

Key Takeaways

Leading Malaysian manufacturers of cable trays include Array Metal, SAN Engineering, U-LI Group, Sun Energy System, and NK Synergy, offering a wide range of cable management solutions for industrial, commercial, and residential applications.

Array Metal is a professional cable tray manufacturer based in Shah Alam, Selangor, Malaysia. They provide a wide variety of cable support systems, including cable trays, ladders, trunking, and wire trays, with a strong international distribution network covering Singapore, Australia, and the United States, ensuring timely delivery and reliable support. SAN Engineering and Electrical Support specializes in high-quality hot-dip galvanized (HDG) cable trays, corrosion-resistant steel, stainless steel, and aluminum alloy trays. Their products include zinc, PVC, and epoxy-coated finishes, designed for efficient cable routing, maintenance access, and long-term durability. U-LI Group has been manufacturing cable support systems since 1978, operating five manufacturing sites in Malaysia. Their product range includes perforated cable trays, cable ladders, cable trunking, wire baskets, and floor trunking. U-LI emphasizes compliance with international standards and offers flexible solutions for medium to heavy-duty installations. Sun Energy System (UMI Cable Support Solution) produces metal cable ladders, trays, and trunking suitable for heavy-duty applications. They offer materials such as electro zinc galvanized steel, pre-galvanized steel, mild steel, and stainless steel, meeting rigorous NEMA and CSA standards for safety and reliability. NK Synergy provides industrial-grade cable trays including perforated, ladder, wire mesh, and FRP trays. Their products are available in mild steel, stainless steel, or aluminum, with pre-galvanized, hot-dip galvanized, or powder-coated finishes. NK Synergy focuses on durability, adaptability, and suitability for power plants, data centers, and commercial buildings.

Considerations for Selection

When choosing a Malaysian cable tray manufacturer, consider:

- **Material and Finish:** Steel, stainless steel, aluminum, FRP, and coatings like HDG, PVC, or powder coating for corrosion resistance.
 - **Application:** Light, medium, or heavy-duty installations in industrial, commercial, or residential settings.
 - **Compliance:** Adherence to local and international standards (NEMA, CSA, ISO).
 - **Customization:** Ability to provide tailored solutions for specific project requirements.
 - **Support and Distribution:** Timely delivery, technical support, and after-sales service.
- These manufacturers collectively offer comprehensive solutions for cable management, ensuring safety, durability, and efficient installation for a wide range of projects in Malaysia and abroad.
