

Mali Intelligent Relay Protection Tester

Overview

Protection relay tester which offers all the characteristics and functions needed for protective relay testing, in a manual or automatic mode, designed for maximum efficiency, flexibility and simplicity, with the required accuracy and performance to test any kind and type of. Protection relay tester which offers all the characteristics and functions needed for protective relay testing, in a manual or automatic mode, designed for maximum efficiency, flexibility and simplicity, with the required accuracy and performance to test any kind and type of. Reach out to Kingsie for a pricing inquiry and a demonstration of our high-performance substation relay testing equipment today! Universal Relay Test Applications. 13 Channels (6x35A & 7x310V) outputs, Each output channels are independent and simultaneous control of magnitude, Phase angle and. Compact relay test set for quick and easy manual three-phase testing Ultra-portable test set for primary and secondary injection, as well as basic protection tests Modular, multi-phase protection relay test set and commissioning tool Compact relay test set for quick and easy manual three-phase. This patent search tool allows you not only to search the PCT database of about 2 million International Applications but also the worldwide patent collections. This search facility features: flexible search syntax; automatic word stemming and relevance ranking; as well as graphical results. With Megger as your trusted partner, you can overcome the most complex of relay protection test challenges. Even our advanced relay test modules remain intuitive enough to. Applications: Multi-functional, covering overcurrent, distance, and differential protection.

Article Content

117054775 Rapid intelligent test platform device for relay protection ...

The invention discloses a rapid intelligent test platform device for a relay protection device. Relates to the technical field of relay protection, and comprises a front-end acquisition module which is used for

Development of Evaluation Module for Relay Protection Competition of ...

At present, relay protection competitions often use conventional substations for practical tests. The main test point of the smart substation relay protection c
