

New Zealand Industrial-Grade 10G Optical Module

Overview

A smart, budget-friendly choice for 10G networks. The module includes built-in digital diagnostics (DDM) for monitoring optical power, voltage, temperature, laser bias current, and other key parameters.

Key Takeaways

The SO-SFP-10GE-T is a bi-directional transceiver module engineered for high-speed 10G Ethernet over standard Category 6a/7 cables. Supporting robust data rates and auto-negotiation, it enables seamless performance in advanced enterprise and industrial networks. Fully compliant with Extreme | Industrial temperature rated. Looking for a cost-effective SFP+ solution that enables higher port densities and greater bandwidth? Choose the 1310-nm Singlemode SFP (LC) 10G optical transceiver, which transmits and receives optical data over singlemode optical fiber up to 10 km. All of our Cisco SFP+ (SFP Plus) are tested in-house prior to shipping to insure that they will arrive in perfect physical and working. Note: All clothing sizings are for reference only. In case it doesn't fit, we can exchange it for you.
