

Nordic Tower Communication Facilities Services

Overview

They are towers, masts, and buildings strategically placed across the Nordic region and provide services for mobile networks, fiber networks, and cable TV, as well as radio and TV signals. Through our 20,000 strategically positioned sites, encompassing towers, masts, and buildings, we deliver innovative solutions that empower both. Telenor Group is a leading telecommunications company, bringing its connectivity services to millions of customers across the Nordics and Asia. Leveraging Telenor's deep expertise, we have built a leading infrastructure company across the Nordics, focusing on three business areas: towers, data centers, and sovereign AI. Telenor Towers is the largest telecom tower company in the Nordic region, operating more than 20,000 sites - towers, masts, rooftops, and more, across Norway, Sweden, and Finland. This phase requires meticulous planning, specialized equipment, and highly skilled crews adhering to strict safety protocols.
