

Optical splitter price

Overview

Amazon.com: Optical Splitter Discover optical fiber splitters designed for home theaters and gaming consoles. Aluminum construction for durability. Optical.

Key Takeaways

Optical splitters typically range from around \$5 to over \$100 depending on type, channels, and quality. Overview of Pricing

- Consumer TOSLink Audio Splitters: Simple 1-to-2 or 1-to-4 optical audio splitters for home use generally cost \$5-\$20 on platforms like Amazon . Higher-quality digital audio splitters with multiple outputs may reach \$30-\$50 .
 - Passive Optical Splitters for PON Networks: These are used in fiber optic networks to split signals for multiple endpoints. Prices vary by split ratio (e.g., 1:2, 1:4, 1:8) and manufacturer. Typical prices range from \$10 to \$100+ depending on specifications and brand .
 - Optical Wavelength Splitters: Specialized splitters for separating wavelengths in advanced networks (e.g., NGPON2) are more expensive, often \$50-\$150 or more .
 - Price Comparison Sites: On platforms like Idealo.de, optical splitters are listed with thousands of offers, showing a wide range of prices depending on type and vendor .
- Factors Affecting Price
- Split Ratio: More output channels generally increase cost.
 - Type: Audio TOSLink splitters are cheaper than telecom-grade passive splitters.
 - Brand and Quality: Leading manufacturers and certified components cost more.

- Application: Network-grade splitters for fiber-optic systems are priced higher than consumer audio splitters.

Buying Tips

- Check stock availability as some models may be limited in quantity on Amazon and other retailers .
- Compare specifications such as insertion loss, wavelength range, and connector type to ensure compatibility.
- Consider bulk purchases from distributors like CPC UK for network-grade splitters to reduce per-unit cost . Overall, optical splitter prices vary widely based on function, quality, and application, with consumer audio splitters being the most affordable and network-grade or wavelength splitters being significantly more expensive.
