

PM20 model optical power meter

Overview

Thorlabs PM20C Fiber Optic Power Meter with InGaAs sensor, 800–1700 nm range, -60 dBm to +13 dBm power measurement, NIST-traceable calibration, and rechargeable handheld design. 1 A PM61CH power meter with a fiber optic patch cable (sold separately) attached to the detector port is shown here. The PM60 and PM61 Series of Fiber Optic Power Meters are robust, full-featured, handheld instruments, which together cover the full range of optical fiber applications. InGaAs (PM20C or PM20CH) or Si (PM20A) Sensors Wavelength Range: 400 nm - 1100 nm (Si) 800 nm - 1700 nm (InGaAs) Power Ranges: -60 dBm to 16 dBm (1 nW - 40 mW) for PM20A -60 dBm to 13 dBm (1 nW - 20 mW) for PM20C -50 dBm to 23 dBm (10 nW - 200 mW) for PM20CH Interchangeable Fiber Connector, FC. The PM20 Series of Fiber Optic Power Meters are robust, full-featured, handheld instruments, which together cover the full range of optical fiber applications within the 400 - 1700 nm range with optical powers ranging from -60 dBm to +23 dBm (1 nW - 200 mW).

THORLABS PM20 SERIES OPERATION MANUAL Pdf

1 General Information 1 General Information The Thorlabs PM20 Fiber-optic Power Meters is an easy to use, robust and flexible fiber-optic power measurement

Fiber Optic Power Meters with Internal Sensor

Each power meter is shipped with an SM05 (0.535"-40) internally threaded PM20-25 adapter for fiber patch cables with 2.5 mm ferrules. The PM20-25 adapter is

PM20 Series

Find out all of the information about the Thorlabs product: optical power meter PM20 Series. Contact a supplier or the parent company directly to get a quote or to find

PM20 Series

The Thorlabs PM20 Fiber-optic Power Meters is an easy to use, robust and flexible fiber-optic power measurement system with built-in optical sensor. The PM20 Power Meters feature NIST traceable

Thorlabs PM20C Optical Power Meter

Thorlabs PM20C Fiber Optic Power Meter with InGaAs sensor, 800–1700 nm range, –60 dBm to +13 dBm power measurement, NIST-traceable calibration, and rechargeable handheld design.

Thorlabs PM20C 800nm Fiber Optic Optical Power Meter

The Thorlabs PM20C is a compact and portable optical power meter specifically calibrated for 800nm wavelengths, commonly used in fiber optic communication and laser systems. This power meter

Thor Labs PM20CH

Model: PM20CH Manufactured by: Thor Labs Category: Optical Meters Thor Labs PM20CH Overview The PM20 Series of Fiber Optic Power Meters are robust, full-featured, handheld instruments, which

Multichannel Optical Power Meter

FIBERPRO's newly released optical multichannel power meter, the PM2100, provides the best production efficiency for optical device manufacturers. The PM2100 measures optical power for a

Multichannel Optical Power Meter

Multichannel Optical Power Meter PM2100 FIBERPRO's newly released optical multichannel power meter, the PM2100, provides the best production efficiency for optical device manufacturers. The

PM-200B Optical Power Meter (-50dBm to +26 dBm) /

PM-200B Optical Power Meter The Precision Rated Optics PM-200B has a built-in optical power meter and visual fault locator (VFL). The PM-200B is excellent for

THORLABS PM20 SERIES OPERATION MANUAL Pdf

View and Download THORLABS PM20 Series operation manual online. Fiber Optic Power Meter. PM20 Series measuring instruments pdf manual download. Also

PM-202A Optical Power Meter (-70 to +10 dBm)

The all-in-one PM Series Optical Power Meter are designed for use with an Optical Source for performing optical loss measurements on fiber optic cables. The PM-202 series are designed for

PM-102A Optical Power Meter (-70 to +10 dBm)

PM-102A Optical Power Meter are designed for affordable budget, but meet the basic demands for installing, testing, and maintaining singlemode and multimode networks and cables.

PM-204 Series Optical Power Meter – FiberOptics

The PM-204B Optical Power Meter has been designed to function in laboratories, LANs, WANs and CATV environments as well as long distance optical networks.

PM20 Series

PM20 Series optical power meters and sensors are precise instruments that are designed to deliver very accurate measurements and provide useful service over a long period of time.

PM-212-MPO Power Meter Manual | PDF | Battery

The document is an instruction manual for the PM-212-MPO optical power meter. It describes the key features of the meter which include measuring absolute and

THORLABS PM20CH Fiber Optic Power Meters with

Distributor of THORLABS PM20CH Fiber Optic Power Meters with Internal Sensor (800 nm-1700 nm) Shinho, JOINWIT, SANWA, Santec, UNI-T, EXFO,
