

Single-mode fiber optic 4-core pigtail cable

Overview

This 1-meter SC/APC 4-core waterproof single-mode fiber pigtail features pre-terminated connectors, a black protective jacket, and color-coded fibers for organized outdoor network installations. 4-Core Single mode Fiber Optic Cable also called 4-core Optical fiber cable, is a type of communications optic cable which has the same transmission speed as light. They are used to connect final user to FTTH or GPON line. Perfect for telecom, CATV, and enterprise outdoor fiber deployments, with OEM and customization options. HES 4 Core, Single Tube, Steel Armored, Single Jacketed Fiber Optic Cable SM 9/125 μ Single Mode HES Branded Fiber Optic Cables Single Mode 4 Core HES branded fiber optic cables are designed with high performance and reliability, focusing especially on single mode fiber technology to meet. Pigtails are used for non-permanent connections in patch panels, transmission equipment etc. The OS2 bend-insensitive fiber optic pigtails have less attenuation when bent or twisted than traditional fiber optic pigtails. Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Our premium pigtails offer low insertion loss and custom length options.
