The price of grounding the bridge deck electrical distribution box

Overview

For common setups, plan for a total of about \$1,000 to \$3,300. A minimal upgrade in a straightforward home with nearby access and no trenching might land near the low end, while complex sites with long runs, concrete restoration, or permit requirements push toward the high end. What buyers typically pay to ground an electrical panel ranges from a low to high spread depending on site conditions, materials, and labor. Main cost drivers include materials like grounding rods and clamps, labor hours, and potential permits. 24 after \$25 OFF your total qualifying purchase upon opening a new card.
