

Triple-network integrated fiber distribution box with 12 cores

Overview

With a maximum capacity of 12 cores and the ability to accommodate 3 pieces of 8-13mm cables, it provides ample space for your connectivity needs. What sets it apart is the innovative design that features a flip-up distribution panel and a cup-joint feeder placement mechanism. The 12 Core Fiber Optic Distribution Box is meticulously crafted using high-quality ABS+ material, guaranteeing exceptional protection and achieving an impressive IP 65 protection level. It integrates fiber splicing, splitting, distribution, storage and cable connection in one solid. This distribution box terminates outside optical cables with up to 12 fibers; it allocates 12 adapters for connecting with max 12 drop cable pigtails, it is also suitable for using with mini splitters. The box works under both indoor and outdoor environments. It is a perfect cost-effective. Premium-Line FTTH distribution box is aimed designed for multi-purpose applications in FTTH projects, the dual layer design supports direct termination, and also FTTH distributions via mini splitter built in, available for from 1:2 to 2:32 distributions with Premium-Line FTTH distribution cable.
