

Venezuelan aluminum cable tray price

Overview

Since 1982, VALDINOX has been designing and manufacturing wire mesh cable trays, supports, and easy-installation accessories.

Key Takeaways

Aluminum cable trays in Venezuela are available from local suppliers, with prices varying based on size, type, and order quantity, typically offering cost-effective and durable solutions. Local Suppliers and Pricing

In Venezuela, companies like Jeetmull Jaichandlall and CableTray® provide aluminum cable trays for industrial and commercial applications. Prices are generally competitive and designed to balance durability with affordability, though exact figures depend on the tray dimensions, load capacity, and finish. Local suppliers often offer bulk discounts and can provide OEM or custom solutions.

Factors Affecting Price

- Material quality: Aluminum trays are lightweight, corrosion-resistant, and recyclable, which can slightly increase cost compared to steel but reduce long-term maintenance expenses.
- Tray type: Solid, perforated, or ladder-style trays have different manufacturing costs.
- Size and length: Longer or wider trays cost more due to material usage.
- Order volume: Bulk purchases typically reduce the per-unit price.

- Installation and accessories: Mounting brackets, connectors, and bends may add to the total cost.

International Price Reference

For comparison, international suppliers like Alibaba list aluminum cable trays with prices ranging widely depending on specifications, often starting from \$10-\$50 per meter for standard trays, with bulk orders and custom sizes available . This can help gauge local pricing trends in Venezuela.

Recommendations

- Contact local suppliers directly for quotes based on your project specifications.
- Consider bulk orders to reduce unit cost.
- Verify material grade and corrosion resistance, especially for outdoor or industrial environments.
- Compare local prices with international suppliers if importing is feasible, keeping shipping and customs in mind. By considering these factors, you can obtain a cost-effective and durable aluminum cable tray solution suitable for your needs in Venezuela .
