

What are some custom network cabinet manufacturers in Kenya

Overview

Buy Network Cabinets in Kenya | Data Cabinets Kenya We specialize in supplying networking cabinets, outdoor network enclosures, cable trays, network cables.

Key Takeaways

Kenya has several reputable network cabinet manufacturers and suppliers, including Giganet, Easenet, APS, Siemon, Totem, and APC, available through local distributors.

- **Key Manufacturers and Suppliers**
- **Giganet:** Offers a wide range of wall-mount and floor-standing network cabinets, with sizes from 4U to 42U, perforated doors for airflow, removable side panels, and basic cooling fans. Popular for small to medium businesses due to affordability and availability .
- **Easenet:** Provides robust steel cabinets with lockable glass or perforated doors, cooling fan options, PDU mounting, and castor wheels for floor-standing models .
- **APS, Siemon, APC, Totem:** These international brands are available in Kenya through distributors like TDK Solutions and Techyshop. They offer high-quality server racks, wall-mounted cabinets, and floor-standing units suitable for enterprise and data center environments .
- **Local Distributors:**
- **Dataworld:** Supplies network cabinets, server racks, and accessories across Kenya .

- TDK Solutions Ltd: Stocks a full range of cabinets from small 4U units to large 47U data center racks, with integrated cooling and cable management solutions .
- Techyshop: Offers wall-mounted and floor-standing cabinets, including Totem and Siemon products, along with accessories like PDUs, fans, and cable management solutions .
- Instant Device: Provides indoor and outdoor networking cabinets, rackmount cabinets, and optical distribution frames, suitable for ISPs, FTTH deployments, and enterprise networks .

Considerations When Choosing a Network Cabinet

- Size and Mounting: Wall-mount (4U-18U) for small offices or CCTV setups; floor-standing (22U-47U) for data centers.
- Cooling and Ventilation: Perforated doors, fans, and airflow management are essential for heat dissipation.
- Security: Lockable doors and side panels protect sensitive equipment.
- Accessories: PDUs, cable management, and adjustable rails improve organization and scalability.
- Local Availability: Many suppliers offer delivery across Nairobi, Mombasa, Kisumu, and other regions, with some extending services to East Africa . These manufacturers and distributors provide a comprehensive selection of network cabinets suitable for various IT infrastructure needs in Kenya.
