

Which company makes the best ladder-type cable trays

Overview

34 Cable Ladder Manufacturers in 2026 | MetoreeThis section provides an overview for cable ladders as well as their applications and principles. Also, plea.

Key Takeaways

Top recommended companies for ladder-type cable trays include Pemsa Cable Management, Thorne & Derrick, Legrand North America, Eaton, and Atkore International. Leading Manufacturers

- Pemsa Cable Management, S.A. – A top-ranked provider specializing in robust ladder-type cable trays suitable for industrial and commercial applications, offering durable materials and modular designs for easy installation and maintenance .
- Thorne & Derrick – Known for high-quality cable ladder systems that support heavy cable loads and provide excellent ventilation, ideal for factories, data centers, and large commercial buildings .
- Legrand North America, LLC – Offers a wide range of metallic ladder trays, including straight and curved sections, with accessories for horizontal and vertical fittings. Legrand emphasizes compliance with international standards and sustainable solutions .
- Eaton (B-Line Series) – Provides metallic and non-metallic/fiberglass ladder systems with superior strength-to-weight ratios. Eaton's products are designed for commercial and data center environments, with CAD/BIM support for precise planning .

- Atkore International – Supplies galvanized, stainless steel, and fiberglass ladder trays, catering to heavy-duty applications in oil, gas, renewable energy, and infrastructure projects. They offer both standard and custom solutions .

Key Considerations

- Material: Choose between galvanized steel, aluminum, or stainless steel depending on environmental conditions and load requirements .
- Load Capacity: Ensure the tray can support the weight of cables in your installation, especially in industrial or data center settings .
- Customization: Many manufacturers provide modular designs, adjustable mounting systems, and specialized coatings for harsh environments .
- Compliance: Select suppliers whose products meet international standards for safety and durability . These companies are recognized for their reliability, product quality, and versatility, making them suitable for a wide range of applications from commercial buildings to industrial facilities and critical infrastructure projects.
