

Zxa distribution box

Overview

ZXA10 C610 is a 1U pizza-box OLT device that provides 16/8*PON access. It is designed for flexible and fast deployment. Meeting various application scenarios such as remote areas, low-density areas, cost-sensitive areas, smart industrial parks, commercial buildings and FTTM. Supports up to 320Gbps switching capacity and 32K MAC addresses. Carrier-class security protection and high-reliability redundancy 3.

About This Manual Purpose The ZXA10 C300 Optical Access Convergence Equipment (ZXA10 C300 for short) is a full-service optical access platform. The ZXA10 C300 can be connected with MDUs/ONUs/ONTs through various networking technologies. Meet the full-scenario requirements of ultra-high altitude, large network, and network equipment, as well as carrier-class QoS and security. Encompass everything from distribution terminals to drop cables, meticulously crafted for effortless. High density 1U pizza-box OLT, provides 16/8 ports GPON, 16/8 ports XGS-PON, 8 ports XGS Combo PON and 8 ports Any-PON access.
